for language learning

TELL ME MORE

Is the world leader in language learning software, and is appreciated by users and teachers alike for its use of speech recognition technology and

its personalised language courses.

The latest version is a truly intelligent software package. It analyses your results as you learn, and then suggests the activities best-suited to your needs. Whatever your objectives or level, TELL ME MORE adapts to your needs and guides you throughout your course, just as a teacher would.

5 LANGUAGES

This COMPLETE COURSE represents in total 1,200 exercises organised into 35 different types of activity.

Lesson Workshop

F1-L601-EN

3 individual approaches to learning to help personalise your course

- ▶ The **DYNAMIC MODE** offers a truly intelligent way of managing your learning. It analyses your progress as you work, and adjusts the next activities in your course according to your results in each exercise.
- ▶ The **GUIDED MODE** offers a personalised learning programme in accordance with your objectives and the time you wish to spend learning.

▶ Finally, you can organise your own learning programme, choosing activities from the workshops at your own pace, in the **FREE-TO-ROAM MODE**.

250 hours of learning, divided into 6 Workshops

- ▶ The **Lesson Workshop** in which the activities are organised by topic
- ▶ The **Grammar Workshop** and **Vocabulary Workshop** which link exercises with grammar and conjugation rules or with vocabulary lists classified either by topic or by level
- ▶ The **Cultural Workshop** which helps you to improve your knowledge of the countries in which the language is spoken
- ▶ The **Oral Workshop** which focuses on both comprehension and oral expression, through the use of numerous dialogues and interactive videos
- ▶ The **Written Workshop** which includes exercises to help you improve your written expression

The latest technology to help you learn

- ▶ **Top-of-the-range speech recognition technology** enables you to evaluate your pronunciation and automatically detects and corrects your errors (using **S.E.T.S technology**)
- ▶ **Phonetic 3D animations** illustrate the movements of the lips and mouth to help you pronounce each word
- ▶ A **modern and ergonomic interface** allows you to work and browse in comfort and ease

You also have the possibility of continuing your learning in the Online Resource Centre, of participating in chats with a Club Auralog Tutor or of registering for a personalised Tutoring Service.

Minimum configuration

PC or compatible: Celeron 333 MHz or equivalent, Windows 95*, 98, NT4*, Millennium, 2000 or XP, 64 MB RAM (128 MB for NT4, Millennium, 2000 and XP), 70 MB available on hard disk, 8X CD-ROM drive, 800x600, 65536-colour graphics card (16 bit), 16-bit Windows-compatible sound card, microphone and speakers or headset.

Recommended configuration

PC or compatible: Pentium III 650 MHz or equivalent, Windows 95*, 98, NT4*, Millennium, 2000 or XP, 128 MB RAM (256 MB for NT4, Millennium, 2000 and XP), 100 MB available on hard disk, 24x CD-ROM drive, 1024x768, 16 million-colour graphics card (24 bit), 16-bit Windows-compatible sound card, microphone and speakers or headset, Internet connection.
